Node.js Web Framework (Learning)

- **MongoDB**

MongoDB data queries (Learning)

OBJECTIVE

A Frontend Developer is a professional responsible for creating the visual and interactive parts of a website or web application that users see and interact with. They use technologies like HTML, CSS, JavaScript, and frameworks such as React, Angular, or Vue to build responsive, user-friendly interfaces. Their work involves translating design mockups into functional code, optimizing performance, ensuring cross-browser compatibility, and enhancing user experience.
